

PRESS RELEASE
Physicians Choice Dialysis

October 14, 2010 - — **PCD extends offers on land for expansion in the Alabama area.**

Physicians Choice Dialysis is proud to announce the purchase of land in 2 separate areas, Northeast Alabama and Southeast Alabama. We welcome the new physician partners and look forward to a long and prosperous relationship with each of them in their respective areas. Each of these areas was chosen through the joint effort of Physician Choice Management and its new Joint Venture Partners. These areas have been evaluated to assure that clinical excellence, physician dedication and financial viability will be at the center of the operation.

We look forward to welcoming yet another new patient base into the respective areas soon.

Physicians Choice Dialysis is a nurse driven physician owned organization with a mission to provide the highest quality care to its patient population. The company owns, manages, develops and operates end stage renal disease programs throughout the country.
