

PRESS RELEASE
Physicians Choice Dialysis

Effective July 24, 2008

ACQUISITION OF THREE END STAGE RENAL DISEASE FACILITIES

I am pleased to announce that effective June 30th, 2008. Physicians Choice Dialysis consummated its acquisition of three end stage renal disease facilities from Fresenius Medical Care of North America. The facilities are located in Talladega, Alabama (one facility) and Anniston, Alabama (two facilities) and total approximately 180 end stage renal disease patients. The transaction is retroactive to June 1, 2008.

I am extremely proud of our PCD Team and all who have helped and continue to help in the acquisition and integration of these facilities into the PCD family. Our team has done an extremely efficient job and has worked many hours in connection with this transaction which was consummated in a very short period of time. We continue to work hard in upgrading such facilities to PCD standards.

OPENING OF NEW END STAGE RENAL DISEASE FACILITY IN JACKSONVILLE, ALABAMA

Effective July 22, 2008 Physician Choice Dialysis received Medicare Certification for the opening of its new dialysis center located in Jacksonville, Alabama. The Medical Director is Dr. B.S. Bheemanathini. We are proud of the great work the PCD team has displayed in connection with the opening of this facility in such a short period of time. The address of the facility is: 331 Henry Road Southwest, Jacksonville, Alabama.

Physicians Choice Dialysis is a nurse driven physician owned organization with a mission to provide the highest quality care to its patient population. The company owns, manages, develops and operates end stage renal disease programs throughout the country.
